The combined circulation of the Daily and Tri-Weekly editions of the Parmor in the city, and in the sec tion of country trading with Nashville, is greater than that of any other paper in the city. All advertisements are inserted in both editions-hence the Parmor is the best advertising medium.

The Louisville Courier has recently donned a new and beautiful dress. The Courier takes issue with the Democrat on the Kansas issue, and we doubt not will take all the wind out of its contemporary's sails, before the contest is over.

The Magazines,

The Ecceptic for February, has been received. It contains the usual amount of choice reading, that is to say, it is filled from cover to cover with the creme de creme of the British periodicals.

The portrait in this number is one of Sir WILLIAM HAMILTON, the "great thinker of Scotland, long renowned in the world of letters, and especially in metaphysical research." There is a biographical sketch of this eminent man, and also an article on the "Life and Metaphysics of Sir William Hamilton." condensed from the "Edinburg University Papers."

In confirmation of the accuracy and truthfulness of the pertraits represented in that gem of the January number, "Sir Walter Scott and His Friends," we have here a letter from a Scotch gentleman now sojourning in Boston, who was a personal friend and neighbor of HIGH MILLER. He says: "Permit me to thank you forthis gift, and to express the pleasure I feel in seeing the old familiar faces of those whom I personally knew, namely, Scott, Wilson, L ckhart, Jeffrey, Ferguscu Allen, and Wilk e, presented in this form. Your artist has succeeded in producing most exquisite likenesses of these notable men, as will be acknowledged by all who ever enjoyed the pleasure of seeing them."

BLACKWOOD, for January, American edition has also been received. This sterling old monthly is perhaps more earnestly looked for than any other of the LEONARD SCOTT publications. The articles in this number, which will be found of the greatest interest to the general reader, are an essay upon those beneficient and terrible instincts, "Hunger and Thirsty,"-a legend, "The Bells of Botreaux," -and an account of the life and writings of BERANGER. This poet has often been called the Burns of France. But our author here considers that it would have been equally just to have called him the Milton. His estimate

of the celebrated chansonnier is undoubtedly correct. "He is not a Burns startling the quiet | as a candidate for Constable in this District, at the enwith his great emotions; He is not an Anaceon, rose-crowned and flushed with wine. Rich in the power and inspiration of a poet, he is, nevertheless, simply a citizen, living as every body else does, thinking as every body else thinks, throwing his sentiments about everything freely from him in lively and melodious verses, in happy refrains, in delightful turns of expression, which one loves to take into one's lips, as a child does a bonbon." -He, too, thinks just as we have been think-

teen miles below Lawrenceburg, at which office the mail from this place stops three times a week, writes us that the Mirror frequently comes to hand at the advanced age of twentyone days, when he should receive it every Friday Morning-the day after publication. It is feared that the Post Master at Glen Rock is rather careless in overhauling the mail, and suffers some of the matter intended for his office to go to Tuscumbia. - Col. Marror.

For Cash Exclusively. We have this day concluded to do an exclusive Cash business. By so doing we feel confident we will not only make it advantageous to ourselves, but to our cus tomers also. For it is certain, any Merchant can sell his goods cheaper for cash than he can on twelve months' time and perhaps longer. We will continue to sell our present stock at cost for cash. We think this oil fully equal to the best Sperm, and that one gallon is worth more than two of the best Lard Oil.

MASTER MECHANIC'S OFFICE, M. & C. R. R. 1 This will certify that I am using the PARAFFINE CANNEL COAL OIL manufactured by the Union Coal and Oil Company of Maysville, Ky., in our machine Charleston Railroad, and have given it the several tests, in order to prove its qualities as a lubricating oil. I have no hesitation in recommending it as a su-perior oil for Railroad purposes, both in regard to economy and as a perfect Lubricator. I believe it to s a candidate for Constable in the Nashville District, be the best oil I have used, and that one gallon will go as far as two gallons of Lard Oil. The machinery is ow running in the shops with twenty per cent. less power than is required for ordinary oil. The fluidity of the oil arises, I am convinced, from the total absence of gum, and does not effect its lubricating properties, but only requires that the orifices in the oil cups and feeders should be reduced in order to use the oil

tion, and consequently heat. In view of the superior quality of this Oil, we have adopted it for our Mills. Mr. SAVAGE, Md., July 7, 1856. DEAR SIR:-In consequence of taking cold after a bad stack of the measles, some eleven years since, I have from that time suffered greatly with a disordered liver and stomach. I have been at times so bad that my life was despaired of. I was induced some time ago, We are offering for Sale for Cash, through the persuasion of a friend, Mr. Henry Shafer, to try a bottle of Hoofland's German's Bitters, thinking if it done no good it could do no harm, and knowing Mr. Shafer to be a gentleman who would not recommend any thing to me that he did not have confidence in. Before I had taken one third of the bottle my bowels became regular and I had a fine appetite. When I had used two-thirds of it I considered my health as good as ever it was, and could eat anything. without its disagreeing with me in the least. I now keep a bottle of the Bitters in the house continually and in case I take cold, or I feel unwell, I take one or two doses, and it makes a change in my bowels which is all I need, wherefore, for the past eleven years, my doctor bill has been from \$10 to \$25 per year, besides loss of time and severe illness. Yours, truly,

Best Remedy for Tooth-ache. A drop or two of Bragg's Arctic Liniment, put into the hollow of an aching tooth, will quickly relieve the sufferer's agony. Its penetrative property is so great that it instantly reaches the seat of the pain and drives out the inflammation from the throbbing nerve. If the face be swollen, one or two applications of the Lini ment will remove the swelling, by causing the bad hu mors to be absorbed and driven off. There is no longer any occasion for sufferers of tooth-ache passing sleepiess nights of agony; Bragg's Arctic Liniment affords speedy relief, and may be obtained at any reapectable Drug-store. lively appearance.

This is a proper place to remark upon a little incident in reference to our city and its credit, which occured to day on our streets. The representative of a Nashville House was trying to engage Whisky at a low figure for cash—could give no time. If he could not sell here for cash he was going below to sell on time. In eference to this reflection on our merchants, we wish o remind our Nashville friends and all others, that if there is any paper lying over unpaid in Atlanta we'are not aware of it. And we can assert with some confi-dence that not a single draft from Tennessee remains dishonored. Can the same be said of Augusta, Savan-nah or Charleston? We have withstood the storm and considering our want of capital and banking facilities, we stand to-day as fair as any other city as to commercial integrity and promptitude. The day is not far distant when we shall be sought as customers for even a better article than eighteen cents whisey.

COTTON—The receipts to-day are about 250 bales—and have been beauty all the week. The december is and have been heavy all the week. The demand is animated, and prices full and firm. Now is the time, while both demand and price favors the planter, to in the crop and dispose of it. We quote from S@10%c as extremes.

A CARD. As we have determined to do an exclusive CASH BUSINESS this year, we feel that a word of explanation may be necessary to some of our very particular friends, who have had accounts with us, ever since we commenced business, and we are proud to say we have many such friends, who have always paid their accounts promptly. We feel confident we can make it greatly to the interest of all, by buying our goods cheaper, and of course selling them very much cheaper. There are many persons in our midst who would profer buying for cash, if it could be made to their interest to do so. We know many who do not have accounts, and we think it unfair that persons who buy for cash should pay the same prices as those who buy on credit. It is with these considerations we have adopted an exclusive cash system, and we invite all who are in favor of the system, as well as all those who are in favor of buying goods cheap to give us a call.
